

EU REGULATION 2020/740

TYRE LABELLING | MERCEDES-BENZ

INFORMATION

The Union has committed itself to creating an energy union with a forward-looking climate policy. Fuel efficiency is a key component of the Union's 2023 climate and energy policy framework and is central to curbing energy demand.

Implementation

Regulation (EU) 2020/740 came into force on 25 June 2020. It repeals and replaces Regulation (EC) No 1222/2009 with effect from 1 May 2021, its date of application. The regulation creates a framework to provide harmonised information on tyre parameters through labelling, enabling end users to make informed decisions when purchasing tyres. The aim is to promote fuel-efficient, safe and low-noise tyres, and thus increase the economic and ecological efficiency of road traffic.

While the content and format of the tyre labelling, i.e. the tyre label, is defined in Annex II, Annex I contains regulations for testing, classification and measurement of the following parameters:

- (A) Fuel efficiency classes and rolling resistance coefficient
- (B) Wet grip classes
- (C) Classes of external rolling noise and measured values
- (D) Snow traction
- (E) Ice traction

Prior to the sale, the Carthago Group is obliged to provide end users with the label for the offered or fitted tyres, as well as the corresponding technical promotional material. It must also ensure that the product data sheet is available.

Your configured vehicle may be equipped with any of the tyre brands listed here, depending on availability at the base vehicle manufacturer and its suppliers.

PRODUCT INFORMATION SHEET

Delegated Regulation (EU) 2020/740

Supplier name or trademark		MICHELIN	
Commercial name or trade designation		AGILIS+ MO-V	
Tyre type identifier	Tyre class	400693	C2
Tyre size designation		235/60R17C	
Speed category symbol		R 170 km/h	
Load-capacity index (for single mounting)		117	
Load-capacity index (for dual mounting)		115	
Fuel efficiency class		B	
Wet grip class		A	
External rolling noise class	External rolling noise value	B	70 dB
Tyre for use in severe snow conditions		No	
Load-capacity index for Additional Service Description (for single mounting)		-	
Load-capacity index for Additional Service Description (for dual mounting)		-	
Speed category symbol (for Additional Service Description)			
Date of start of production (Week / Year)		23/16	
Date of end of production (Week / Year)		-	
Supplier		Service Consommateurs Michelin, place des Carmes-Déchaux 23, 63000 Clermont-Ferrand, FR

The energy label diagram consists of three main sections:

- Fuel Efficiency:** A vertical scale of five colored arrows (A to E) with a fuel pump icon. The rating is **A**.
- Wet Grip:** A vertical scale of five colored arrows (A to E) with a tire and rain icon. The rating is **A**.
- Noise:** A speaker icon with sound waves and a snowflake icon. The noise value is **73 dB** and the snowflake icon is labeled **ABC**.

Additional icons include a tire and a QR code. The text "2020/740" is printed vertically at the bottom right of the label area.
